Kai Aamlid is a Science graduate with a Master's degree and doctorate in Sugar Chemistry from London University and did post-doctoral biotechnological research at King's College. He had an Overseas Research Student Award and a Fellowship in the European Science Exchange Programme under the auspices of the Royal Society. He joined Jarrett Kirman & Willems in 1989 prior to the merger with Brookes Bell. He has been a partner since 1993.

Since becoming a Marine Consultant, he has worked on a wide variety of vessel types, investigating an extensive range of bulk and packaged cargoes, including foodstuffs, coal, ore and minerals. He has conducted major investigations into DRI and fishmeal fires and has extensive knowledge of timber products, being the owner of a major timber estate in Norway and a member of a Norwegian Forestry Association. He has specialist expertise and experience in the carriage of commodities; grains, fishmeal, seed cake, sugar (refined and raw), fruit and other refrigerated goods, vegetable oils, fertilisers and chemicals. He has advised on the safe carriage of many products; for example, providing advice to major shipping companies on the carriage of hazardous chemicals. He has investigated transportation and inherent vice damages. He has prepared technical reports and has given expert witness and factual testimony in litigation.

Academic Qualifications

PhD in Chemistry, 1987 at King's College, University of London.
MSc, 1982 at University of Oslo/The Norwegian College of Agriculture.
BSc, 1978 at University of Oslo.

Awards

Fellowship in European Science Exchange Programme awarded by the Norwegian Royal Society under the auspices of the Royal Society, UK.

Overseas Research Student Award granted by the Committee of Vice-Principals and Chancellors of the Universities of the United Kingdom.

Membership of Professional Bodies

Norwegian Forestry Owners' Association.

Surveying and Consultancy Employment

1998-present Partner, Brookes Bell.

1993-1998 Partner, Jarrett Kirman & Partners.

1989-1993 Associate, Jarrett Kirman & Willems.

Academic and Forestry Employment

1987-1988 Post-Doctoral biotechnological research fellow at King's College, London. This involved joint research between chemists, biochemists and biologists.

1982-1983 Manager of a timber estate.

Scientific Publications

The results of the research for his MSc and PhD degrees were published in Carbohydrate Research.

The results of his Post-Doctoral work were published in seven articles in chemical and biology scientific journals.
