Alan Chapman is a marine engineer with a First Class Certificate of Competency. He joined Brookes Bell in March 2010.

Prior to joining Brookes Bell, Alan was at sea over a period of 28 years serving on a variety of geared and non-geared container ships (with capability for both plug in self contained reefer units and blown air reefer plants), conventional reefer ships and general cargo ships. Alan spent a period of time in Hamburg as superintendent, and has experience standing by several newbuilds, both during and after commissioning. He has sailed in engineering ranks up to and including Chief Engineer, and has experience of modern large common-rail injection systems on slow speed marine diesel propulsion engines.

Professional qualifications:

Class One Certificate of Competency (Unlimited Motor)

Academic qualifications:

HNC Marine Engineering
ONC Marine Engineering

Sea Going Employment:

1995-2010 Blue Star Ship Management, P&O Nedlloyd & Reederei Blue Star – Chief Engineer.
1986- 1995 Cadet to Second Engineer, including refrigeration engineer.
