

Antifouling Coating Failure and Preventative Measure Services

Antifouling Coating Failure and Preventative Measure Services

Brookes Bell is a leading multi-disciplinary technical and scientific consultancy serving the marine and energy sectors.

Founded in Liverpool in 1903, Brookes Bell also operate in in London, Glasgow, Shanghai, Hong Kong and Singapore and enjoy a reputation for being the 'go-to' firm for casualty investigation, forensic analysis, technical dispute resolution and expert witness work.

Technically innovative, our people have unrivalled expertise across a range of interrelated disciplines including Engineering (Marine, Civil and Mechanical), Nautical Services, Naval Architecture, Cargo Science, Fire Investigation, Metallurgy and Non-destructive Testing, enabling complex projects to be delivered through a single point of contact. This wealth of practical experience is combined with cutting-edge in-house technology.

Brookes Bell's reputation for excellence is founded upon integrity and proficiency and we are proud to count the world's most eminent P&I Clubs, Shipowners, Charterers, Underwriters, Cargo Owners, Lawyers, Salvors, Shipyards, Average Adjusters and Government Departments as our clients.

Brookes Bell International Coating Scientists network is available 24/7 to respond to any investigative, analytical and troubleshooting services providing advice on the following:

- underwater hull coating failure
- vessel inspections and surveys
- maintenance and repair coating recommendations
- antifouling coating selection and specification
- antifouling hull cleaning technology
- antifouling regulatory affairs e.g. Biocidal Products Regulation [BPR] and REACH
- transfer of invasive aquatic species
- expert witness testimony at arbitrations
